Contributions Urgently Needed!

Lavender Library, Archives
and Cultural Exchange
Sacramento, CA

Recently the Lambda Letters Treasurer reported there is only $567 left in the Project's bank account. That's barely half our usual monthly expenses. Many of you have been very generous in the past, and I hate to ask you to contribute again. However, under the circumstances, I must ask you to consider making a generous contribution to the Lambda Letters Project today.

This situation resulted from a combination of our success in gathering letters and the disappointing results of our fund-raising efforts. Preliminary reports indicate that we have *already* gathered over 32,000 letters to elected officials this year. That's more than we collected in all of last year! Also, we now have over 800 members from throughout California. More letters and more members mean more expense, however. Moreover, our May auction produced less income than expected. Usually we earn about $1,500 at the auction. This year we made barely $900.

Lesbian State Assemblymember Sheila Kuehl was generous enough to write a letter on our

Marriage Law Update

Currently there are two bills pending in Congress which seek to deny lesbians, gays, and bisexuals the right to marry the persons of their choice. One of them is in the California Legislature.

The U.S. House of Representatives is considering H.R. 3396, the so-called "Defense of Marriage Act." The purpose of this bill is to allow states the right to refuse to recognize marriages between two people of the same gender, even if those marriages occurred legally in another state. The bill also establishes a federal definition of marriage as being only a "legal union between one man and one woman as husband and wife." Presumably this is designed to deny lesbian, gay, or bisexual couples the rights to Social Security survivor's benefits or the ability to submit joint tax returns.

The bill was introduced by Congressmember Barr (R–GA). As of late June it had 113 cosponsors. Ten of them are from California; all are Republicans (see Table 1 on page 9).

H.R. 3396 has been passed by the Judiciary Committee of the House of Representatives and sent to the floor of the House for a vote. If it passes there, it will go to the Senate or to a House/Senate Confer-

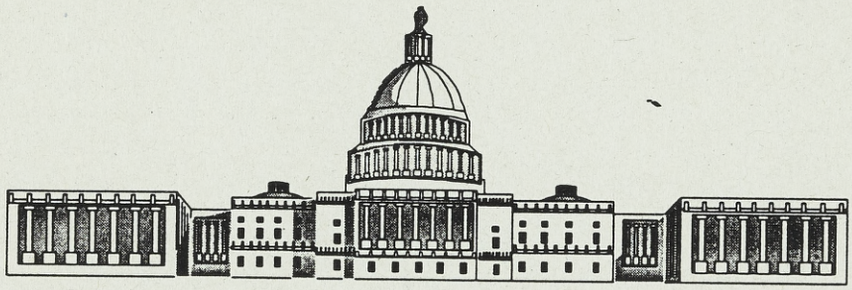
Lesbian/Gay/Bisexual Issue

House Needs to Move on the Hate Crimes Statistics Act

The Hate Crimes Statistics Act was originally enacted in 1990. This Act required the Department of Justice to collect data on crimes that show evidence of prejudice based upon religion, ethnicity, sexual orientation, or disability. However, the Act expired on December 31, 1995. Senators Orrin Hatch (R–UT) and Paul Simon (D–IL), the original cosponsors of the 1990 bill, have introduced a bill to reauthorize the Act.

This bill swiftly moved through the Senate and was passed by unanimous consent in early May. It has now moved to the House but has yet to see any movement. There are relatively few days left to act on this bill prior to adjournment in early October. We need your help by asking California's Congressional Caucus to encourage Speaker Newt Gingrich and Majority Leader Dick Armey to move the bill.



The 1996 bill retains all the provisions of the original bill by merely removing the "sunset clause" from the 1990 law. The bill passed in the 1990 House by a vote of 368–17 before being signed into law by President George Bush.

In 1994 alone, 5,852 incidents of hate crimes were reported. Hate crimes continued to receive national attention in 1995. Included among these horrific crimes were the kidnapping and murder of two lesbians in Oregon and the murder of an African-American man and his wife in South Carolina. These incidents point to the continued need for collecting data on hate crimes in order to help local law enforcement focus its efforts on these crimes.

As Senators Hatch and Simon noted, "while collecting data does not erase bigotry, it does provide a valuable tool in the fight against bias-motivated criminal conduct."

HIV/AIDS Issue

Boxer More "Friendly" Than Feinstein?

On her own initiative, California's Senator Barbara Boxer sent several ten-page letters to each of her colleagues in the Senate. Each letter discussed the need for increased funding in 1997 for HIV/AIDS activities in a different area: e.g., prevention and education, research, and housing. Furthermore, these letters requested increases above those asked for by President Clinton, who is asking for some 1997 funding increases over the 1996 levels.

Thus, we are writing to Senator Feinstein this month, asking her to at least go along with Clinton's 1997 HIV/AIDS funding recommendations, if not the higher ones of her colleague, Senator Boxer. To be honest, Feinstein has not been the strongest advocate for HIV/AIDS-related issues. We must target her specifically to vote for enough funds to meet our community's real needs.

Please write to your representative in the House asking that he or she urge the Speaker and the Majority Leader to move S.B. 1624 through the process. A personal letter in your own handwriting would be most effective. However, if you do not have time, sign the enclosed letter.

Abortion Pill Awaits Fate at FDA

Also known as the "morning-after pill," RU-486 or *mifepristone* has been used as a postcoital contraceptive in parts of Europe for years. Safe and highly effective, RU-486 reduces the need for invasive surgical abortions by inducing spontaneous abortions. It also allows women greater personal control and privacy over the process of pregnancy termination.

First approved for use in France in 1988—followed by Great Britain in 1991 and Sweden in 1992—RU-486 was placed on a list of drugs officially banned by the Food and Drug Administration from importation into the U.S. by the Bush administration. The Clinton administration, in one of its first administrative actions in January, 1992, asked the FDA to reexamine the import ban. The FDA agreed and in 1994, Department of Health and Human Services Secretary Donna Shalala announced that, with the Clinton administration's encouragement, the French maker of RU-486 had donated U.S. rights to the drug to the Population Council—a New York–based, nonprofit research institute—to oversee the FDA's clinical trials.

The U.S. clinical trials have been completed and an application for approval was submitted to the FDA in March. The approval process should be finished sometime between September, 1996, and March, 1997. Sandra Waldman, Director of Public Relations at the Population Council, indicated that as September draws near there may be increased pressure placed upon the FDA from antichoice groups to suspend or completely abandon the ap-

People of Color Issue

Protecting Illegal Immigrant Children

Please write to Senator Dianne Feinstein. Urge her to assure that the Gallegly Amendment will be removed from H.R. 2202, the Immigration in the National Interest Act now pending in Congress. Also ask her to press for a presidential veto of the bill if H.R. 2202 does pass with this amendment still in it. (You may notice that our sample letter on this issue says nothing about human rights, people of color, or any of the social concerns you might expect in such a letter. That's because our contacts in Washington say that members of Congress have been more responsive to the kinds of arguments used in our sample letter.)

H.R. 2202 was introduced by Congressmember Lamar Smith (R–TX). Its purpose is to amend the Immigration and Nationality Act so as to increase deterrence of illegal immigration to the U.S. and facilitate legal entries into this country. The House of Representatives approved an amendment to the bill that would allow states to refuse to provide public education to illegal immigrant children. This amendment was offered by California Republican Elton Gallegly of Oxnard. The Gallegly amendment would hit children of color especially hard.

Both the U.S. Senate and the House of Representatives have passed versions of the immigration reform bill, but only the House version contains Gallegly's amendment. The bill must now go to a House/Senate conference committee to resolve the differences between the two bills. Then both houses will vote on the compromise version that the committee produces. Senator Feinstein is a member of

Lesbian/Gay/Bisexual/ Transgender Issues Analyst Needed

We need a volunteer to help us prepare our monthly articles and sample letters on lesbian/gay/bisexual/transgender issues. This volunteer should have good writing skills. He or she will spend about 10 hours a month researching possible subjects and composing sample letters and articles for our newsletter. The volunteer would also attend a monthly, two- to three-hour staff meeting in which each month's subjects are chosen and other important business of the Project is accomplished. Staff meetings are held on weekends and rotate between locations in the Sacramento and Oakland areas.

The Project can provide leads on how to find suitable subjects and advice on writing if needed. This is a great opportunity for you to influence the subjects we cover. Please consider volunteering for this important position, or help us find the person to do it. A travel allowance can be provided to cover the cost of traveling to and from staff meetings.

If you are interested, please send us a note with your letters or call Boyce Hinman at (916) 965-6851. If can also e-mail a message to LambdaLP@aol.com.

Bring this coupon and get 10% discount off any printing order..

We operate our business based on two directives from our customers; *(1) budget*, and *(2) deadline*. Give us a try, you'll be glad you did!

Fund-raising Chair, Committee Members Needed

As indicated in the lead article, our fund-raising efforts need improvement. During much of the year, any fund-raising activities are done by Lambda Letters' Administrator, as time permits. He has lots of other duties. Therefore, our fund-raising lacks consistency and professionalism. Unless corrected, this situation may limit further growth in the size and effectiveness of Lambda Letters.

We need a volunteer, with experience and skills in fund-raising, to chair the fund-raising committee. He or she will focus on planning and directing an effective fund-raising campaign for Lambda Letters. We also need a committee of at least three or four volunteers to assist the chairperson in implementing the campaign. Hopefully, by concentrating on nothing but fund-raising, this team would provide the economic base we need to grow larger and more effectively.

The Fund-raising Chair should have experience, and probably should reside in the Sacramento area. He or she would spend 10 to 20 hours per month on fund-raising for the Project—more in some months, fewer in others. We would provide a full explanation of our present fund-raising program, but would gratefully accept advice for changing and improving our efforts.

Committee members should probably also reside in Sacramento. However, those residing in other cities could help by selling ad space in our newsletter or selling Entertainment Books or Lambda Letters calendars. Committee members should have good communications skills and would be asked to spend 10 to 20 hours per month on fund-raising for the Project. Prior fund-raising experience is desirable, but not required.

If you are interested in applying, or if you want further information, send us a note with your letters or call us at (916) 965-6851. Please also consider asking a skilled friend to think about volunteering.

Please help us to help you by joining our fund-raising committee.

Two Bad Bills Die

Recently A.B. 3063, authored by Assemblymember William Knight (R–Palmdale), and A.B. 2984, by Assemblymember Bob Margett (R–Arcadia), were defeated in the California State Legislature.

A.B. 3063 would have commissioned a study of ROTC on California State University campuses. The bill included statements which insinuated that the past removal of ROTC programs from state campuses—because ROTC discriminates against gays—had been arbitrary and that ROTC serves a compelling state interest. The bill was an attempt to pressure campuses to reinstate ROTC even though it discriminates. The bill passed the Assembly but it was cancelled, at the author's request, on the date of its first hearing in the Senate Education Committee. The bill is now dead. See Table 2 for a report on how Assemblymembers voted on this bill.

A.B. 2984 would have banned certain forms of late-term abortions. Doctors could have been sent to jail for performing these procedures, even to protect the mother from death or permanent disability. The bill died on the Assembly floor. Lambda Letters members sent 792 letters to the Assembly before it was defeated in that body. Again, the vote of the Assemblymembers is shown in Table 2 at right and on the next page.

In this table, a *Y* means the legislator voted for the bill, an *N* means he or she voted no, and an *A* means that the legislator was absent, abstained, or didn't vote.

Contributions Needed

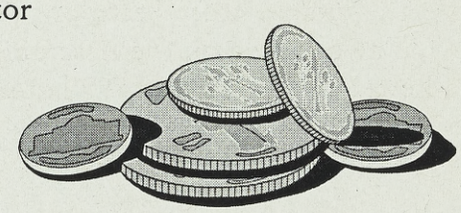
Continued from page 1

behalf, urging people to donate to Lambda Letters Project. We have been sending this letter to people on a fund-raising list that we have acquired. So far, however, the results have been disappointing.

We work hard to keep costs down. We still have no paid employees. Recently, our Treasurer loaned us over $700, interest-free, so we could purchase 30,000 envelopes and have all of them printed at once. By printing that number of envelopes in one run, we saved over $200 in setup charges. We are also photocopying our brochure now instead of printing it, and we reduced the number of pride festivals we attend to cut our costs. We are doing our very best to get the most bang for your buck.

Please consider making a generous contribution now, especially if you have not donated before. Help us continue our important work for you and the community.

Boyce Hinman
Administrator



Sacramento Pride Festival Beats Record!

Over 1,700 signed letters were collected at the 1996 Lambda Gay/Lesbian/Bisexual Freedom Fair in Sacramento on June 8th. That was at least 500 more than we had collected at any previous festival. This record number of letters resulted from the large number of volunteers helping at the booth. They included Larry Beaty, Jennefer Grant, Boyce Hinman, Gretchen Jung, and Ray Leber. However, everyone there agreed that Jennefer, a recent Lambda Letters member and a member of the transgender community, was the best signature gatherer of the day. Thanks to all our volunteers!

Abortion Pill

Continued from page 4

proval process altogether.

To counteract any potential right-wing opposition, this month's letter is directed to David Kessler, the Director of the FDA, urging him to expedite the approval process for RU-486 and consider the evidence instead of any political conditions which may impose pressure upon him in the near future. It has taken a lot of pressure and perseverance from many family-planning organizations (such as Planned Parenthood) to get RU-486 available for use in the U.S. Please lend your support by signing this month's letter, which will help foster the approval process for this important drug. If you want more information regarding RU-486, Sandra Waldman can be reached at (212) 339-0525. For those of you on the World Wide Web, information can also be found at www.ppfa.org (Planned Parenthood Federation of America) and www.pobcouncil.org (Population Council).

Illegal Immigrant Children

Continued from page 4

the conference committee and can play a key role in assuring that the Gallegly Amendment is dropped from the final version of the bill.

The Gallegly Amendment is opposed by major police organizations such as the Fraternal Order of Police, the International Brotherhood of Police Officers, and the National Association of Police Organizations, among others. They oppose it because it means that states may force illegal immigrant children out of school. In major metropolitan areas this would happen to thousands of children. These kids would be unsupervised and have nothing to do. Many would get into drugs, gangs, robbery, burglary, etc.—threatening public safety, increasing the burden on the police, and increasing the taxes needed to pay for police services.

These children came with their parents. They had no choice in the matter. Nevertheless, the Gallegly Amendment would deny them a proper education and trap them in a life of poverty or crime. We don't need any of this.

Please write to Senator Feinstein and urge her to do whatever is necessary to delete this amendment from the bill. Also ask her to persuade the president to veto any bill that contains this amendment.

ence Committee to iron out differences if a similar bill passes in the Senate.

S.B. 1740 is the U.S. Senate's version of this bill. As of late June it had 18 cosponsors, none of them from California.

Lambda Letters is working hard to defeat these bills. In June we sent 447 Lambdagrams opposing the bills to each of California's U.S. Senators, Barbara Boxer (D) and Dianne Feinstein (D). We sent 355 letters to President Clinton and over 500 letters to California members of the House of Representatives. Unfortunately, our community's lobbyists in Washington expect the bills to pass anyway and the President has promised to sign a bill if it does pass. In that case, we can only hope that the courts will declare it unconstitutional.

The marriage bill in the State Legislature is A.B. 1982, authored by Assemblymember William Knight (R–Palmdale). The bill passed the State Assembly, but it has been sitting in the Senate Judiciary Committee for three months. Apparently, state legislators are waiting to see if Congress' actions make state legislation unnecessary.

We will keep you updated on all these bills.
